UNIMORE E-MAIL

All students enrolled in Unimore benefit from a **free e-mail service** that facilitates communication between enrolled students and the University's lecturers and offices.

The mailbox **is activated after enrolment and deactivated three years after** obtaining the degree.

Those who have several careers at Unimore, even if distant in time (e.g. three-year enrolment followed by a master's degree) **always keep the same mailbox**.

Each student is assigned an e-mail address as follows: **ID@studenti.unimore.it.** ID means the 'UNIMORE personal username', i.e. the code you use to access the site www.esse3.unimore.it which is different from your enrolment number.

Further information on the e-mail service is available at the link start.studenti.unimore.it
