We do not want to be too strict however, therefore the certificate does not need to be an official type TOEFL for English or DELE for Spanish, but rather a written letter from the home university or language center confirming that the student has enough ability will do. Alternatively, for Erasmus partners like yourselves, it may be easier for your students to obtain a certificate from the official OLS. Due to high demand, placement in English-language taught courses may not be guaranteed. (If a student wishes to take classes taught in English, the home university should make sure the student has a minimum level of B2 in English.)
